4. The material in Folders I, II and part of III consist primarily of reports furnished to Mr. Dulles by [REDACTED] when she was employed by OSS as [REDACTED] approximately up to 1946. Additional correspondence contained in Folder III and IV center mostly on her personal life and relationship with Mr. and Mrs. Dulles and other personalities. The sensitivity and disposition of this material with regard to OSS and the personal lives of herself and Mr. and Mrs. Dulles I feel should be given some review by responsible Agency officials prior to final release of the material. I found no Agency stamped classified information during this screening.
